

16 members attended the 2nd Working Group meeting of GLH, held at ANT offices on 9 February 2012. In addition to UNITAR and ANT, members represented Hiroshima City, Hiroshima University and the Botanical Gardens. Briefings were provided with regard to international partners during pilot phase -- these include institutions in Afghanistan, Chile, Kazakhstan, The Netherlands, Russia, Singapore, South Africa and Switzerland. Partner institutions in North America and Oceania are currently being identified. The Working Group also brainstormed on matters related to the timely collection, care and dispatch of seeds, as well as issues regarding the certification process, website and design of international plaques accompanying the Hiroshima seeds/trees.
